## **Incidents:**

There have now been any breaches recorded regarding to NetSol Technologies, but there was a noticeable incident that took place. On August 2014, NetSol Technologies, Inc. faced a federal class action lawsuit alleging it misled investors about the progress and financial prospects of its next-generation “NFS” software between 2009 – 2013. The complaint claimed false

statements on product readiness and customer demand, leading to a 30% stock drop after poor Q1 2014 earnings. NetSol denied wrongdoing and stated it would defend the case.

### **Conclusion:**

This report highlights the information is publicly available. The information includes the corporate infrastructure of NetSol Technologies, location of offices, dns mapping, domain information, financial evaluation, subdomains, related incidents, and the technologies used in the domain.
